

FOR IMMEDIATE RELEASE

Brought to You by Chamber of Eco Commerce

February 1, 2012, Atlanta, GA - CEC - We are delighted to introduce you to the **Eco Commerce Hub of Atlanta**, created by Chamber of Eco Commerce (CEC). We have received overwhelming feedback and are very excited to submit this invite to join us as a 'Charter Sponsor'.

Charter Sponsorships are early supporters of the Eco Commerce Hub of Atlanta that have an interest in promoting our mission and objectives. Their financial contributions make it possible for the CEC to begin to work toward fulfilling its vision.

CEC is positioned to lead the way to build **the first of its kind** - a comprehensive **Eco Innovation transfer hub in the world**.

End-users of technology, business people and investors seeking the 'next big thing' can join the Hub to learn about the latest innovations, solutions, partner projects and initiatives in Eco Commerce.

Our core mission is to commercialize market innovations to accelerate the transfer of new-technology in the global marketplace. Our goal is to create shared value to all partners by contributing to environmental and social solutions. We do this by partnering with small to large size Companies and Non-Profits, Universities and Incubators, Government Agencies and NGOs, Chambers of Commerce and Associations, and Corporate Intrapreneurs and Entrepreneurs, to make Eco Innovation commercial success.

The CEC is the only platform serving a global community of **Eco Commerce experts and learners** with a core **focus on new technology transfer**. CEC's goal is to support collaboration and communication needs of small to large businesses, inventors, investors and philanthropist worldwide. In 2012, CEC will expand the Eco Commerce platform to include all key languages to serve local communities and urban areas worldwide.

Information will be delivered via the internet, mobile phones, and other new media. The Hub is now in production. It goes without saying... we can serve only a limited number of highly qualified sponsors. We join forces with the leading brands and partners that meet specific requirements, to bring Eco Innovation to the forefront of the global business community, and the general public.

The founding partners make our program possible and more effective. We invite you to join us as our founding partner. As our deadlines are quickly approaching and the demand for the Hub is immediate, we request your **commitment by April 1, 2012**.

Please contact your local Chapter Leader or Chamber of Eco Commerce in Atlanta, if you have any questions or require additional information: info@ChamberofEcoCommerce.com
