CEC Expands Low Carbon Transport Project to Include Alternative Fuels, Vehicles and Related-Technology

June 11, 2012, Atlanta, GA - Chamber of Eco Commerce --- Inspired by the Alternative Fueled Vehicle Roadshow in Atlanta, CEC kicks-off a new partner project, entitled "Alternative Fueled Vehicles and Related-Technology".

The "Alternative Fueled Vehicle Roadshow" event, hosted by Public Service Commission Chairman **Tim Echols**, is the 2nd Annual AFV Roadshow throughout Georgia, with an up-close look at Alternative Fueled Vehicles.

Ever wondered what options you have for saving money on gasoline? The AFV Georgia Roadshow is coming to answer with unique and inspiring information. The show comes to a neighborhood or business near you, with the experts to answer all of your questions. Whether you manage a fleet or a household, this tour has all the information on the technology, the tax incentives, and the practicality of being energy-wise. Vehicles powered by electricity, propane, and compressed natural gas will be on display for you to see, touch and feel, along with a series of short presentations on understanding the alternatives to traditional gasoline and how they are helpful.

The car and truck showcase will be touring the state of Georgia June 11TH, 12TH, 19th & 20TH. Multiple vehicles will be featured, followed by a round table presentation at each stop, with light refreshments. The AFV Roadshow has scheduled stops in Buckhead, Winder, Athens, Statesboro, St Simons Island, Braselton, Thomasville, Dublin and Norcross. The events are FREE and open to the public, but round table space may be limited.

A Call to Action

CEC stakeholders are invited to submit new TSF/Partner Projects/Initiatives to CEC. To learn more, please contact your regional CEC Chapter Leader, or visit Low Carbon Transport Project page: <http://www.chamberofecocommerce.com/partnerprojects/lowcarbontransport.html>
