

SMART Opportunity Zone (SOZ) USA

Opportunity zones (OZ) across the U.S. can participate in SMART Opportunity Zone (SOZ) Private Public Partnership P3 program to get started in SMART Education, SMART Economic and Workforce Development.

In the SOZs, citizens take central stage. Considering their potential and including the residents in the SMART process is the most efficient way to create a better quality of life for everyone. SMART technology is just a tool, that can help improve the quality of life for citizens.

SOZ Development Program

The SOZ development program identifies and assists the selected OZs in developing accessible and high-quality services in SMART education, healthcare, energy, mobility, agriculture, water, public safety, cybersecurity, and government.

The SOZ development program is managed by the SMART Community Exchange (SCE) in cooperation with local government agencies, educational institutions, and business investors and SMART solution providers.

SMART Projects

The SOZ initiative brings together core stakeholders to meet, learn, strategize, build, implement and execute SMART projects. The opportunities and challenges for OZs in the era of fast technological progress and changes in the natural environment, the SOZ projects will offer opportunities for community leaders and solution providers to meet and exchange critical information and implement SOZ projects. The themes include but are not limited to: SMART inclusive solutions for citizens, SMART Education solutions, SMART public safety & security solutions, SMART open social communication solutions, SMART energy solutions for communities, and SMART government solutions.

SMART Impact

Focused on investing in SMART communities, leaders from government, finance, real estate, economic development, and philanthropy participate in SOZ to develop human capital, explore and accelerate the implementation and execution of SMART to unlock transformative economic potential and create lasting change and impact in America's overlooked OZ communities.

SMART Community Exchanges (SCE)

SCEs are local community gathering facilities offering new educational and business services for residents. SCEs are the cornerstones of local SOZ Economic Development

providing residents and business access to SMART skills development, lifelong learning, and active citizenship. SCEs are multi-function community makerspaces, living labs, and incubators designed to accommodate both innovation, education, workforce training, and entrepreneurship activities.

SMART USA Market

The mega trend of SMART communities is set to drive urban development for the next decade. SMART growth will drive demand for SMART economic development, education, workforce training, community development, concepts, and new business models, North America will continue to dominate the global market for SMART city technologies. Investment rate in North America will increase from \$118.5 billion in 2016 to \$244.5 billion in 2021. Technology ubiquity, advanced investment, and organizational models in U.S. cities will drive investment. There are currently over one hundred SMART community projects in the U.S., and more than six hundred communities, are set to go SMART in the next few years.

SOZ Global

SOZ shares critical information and SMART business opportunities with Foreign Investors.
